you're going to need clothes, and if you're the sane, sensible man we think you are—you're going to consider this one plain question:

"Where can I get most style, most wear, most satisfaction, in clothing—at the least cost."

Everybody claims to give most for least. This time we're not going to. We simply say, "Grant us the favor of a few minutes of your time so that we can show you what we have and actually demonstrate what we think." Come in at any time and try on some of our suits and see how nice they fit, you are under no obligations to buy.

TO TRY 60 MEN ON MURDER CHARGE

Lake Charles, La. Sept. 27.—A special session of the District Court of Calcasieu parish has been called to meet one week from next Monday, when the trial of sixty men, charged with murder in connection with a bloody riot at Grabow, a small mill town north of here, last July, will be commenced. Indications are that the cases will be bitterly fought from beginning to end, and will go on record as among the most notable in criminal annals of Louisiana.

Arthur L. Emerson, president of Timber Workers, is the central figure in the cases, and around him the fight will be waged the fiercest. An earnest effort will be made by the millowners of this section to land him in the penitentiary, or to see that his life is declared forfeited by the jury selected to try him. The timber workers' organization has engaged many eminent lawyers to conduct the defense, and a long trial is anticipated.

The riot at Grabow was the culmination of a long and bitter contest between the mill owners of the long leaf yellow pine belt, and the mill workers' union. This union has been in process of organization for several years, and the mill owners have fought it at every step, even to the extent of posting armed guards about the mills to keep away union agitators. Union men, it is declared, were discharged as soon as their tendencies were discovered, and all men hired were obliged to sign a pledge not to join any union.

Considerable trouble has been experienced at the mill of the Gallo-way—father and sons—at Grabow, and it has been closed for some time, finally reopening with non-union labor. On Sunday, July 7, a party of about 100 union men, headed by Arthur L. Emerson, their president, went to the mill to hold a meeting. The steps of the mill office were filled by employees of the Galloways. When Emerson attempted to make a speech he was interrupted with hoots and jeers from the non-union men about the mill. His followers resented the interruption and the friction between the two bodies of men soon resulted in bloodshed.

That the union men who went to the mill for the meeting anticipated trouble is indicated by the fact that all of them were heavily armed. Some one in the crowd fired a shot, and immediately the employees of the mill, headed by John Galloway, rushed into the office, secured weapons, and opened fire on the crowd outside. The firing became general and when the union men finally broke and ran, three men were dead and more than forty others wounded.

At a session of the grand jury, held immediately following the riot, the Galloways and their employees were exonerated and sixty of the union men held for murder. Since the indictments were returned the Brotherhood of Timber Workers has been taken over by the Industrial Workers of the World. The last named organization has taken charge of the defense of the men held for trial.

DID NOT KNOW WHAT A SPLENDID STATE HE LIVED IN

R. E. Haynes returned from the state fair Thursday evening full of enthusiasm over what he found among the exhibits.

"I had no idea that Oklahoma was such a grand state until I saw all those wonderful exhibits of her resources. I am prouder than ever that I am a citizen of such a state."

He also said that Pontotoc county's exhibit compares most favorably with any other at the fair. The apple exhibit is the best there, the corn is equally as good as any other, and the miniature concrete silo of the Oklahoma Portland Cement Co. is a center of interest. The Pontotoc exhibit is a fine general display of all its resources, both agricultural and mineral.

Frost in Panhandle.

Amarilla, Tex., Sept. 26.—Although frost in this section of the Panhandle was general this morning, only the tender garden stuff was nipped. Row crops have escaped injury and will make heavy yields.

Order your Fall and Winter Suits at the P. & M. Tailor Shop. Phone 126, 118 South Broadway.

SHAW'S

Preparing for Campaign Probe.

Washington, D. C. Sept. 27.—The members of the Senate sub-committee appointed to investigate campaign expenditures, of which Senator Clapp of Minnesota is chairman, met here today to perfect plans for the hearings. These hearings are scheduled to begin next Monday, on which date all witnesses have been instructed to appear. Among the important witnesses summoned to tell what they know concerning contributions to the presidential campaign funds of four years ago are George B. Cortelyou, William Loeb, Jr., Ex-Senator Charles Dick of Ohio, Ex-Senator Nathan B. Scott of West Virginia, Henry C. Frick, William R. Hearst, William Rockefeller and George W. Perkins. It is understood also that Col. Roosevelt will voluntarily appear before the committee to answer any questions that may be asked him concerning his knowledge of Standard Oil and other corporation

contributions to the Republican campaign fund in 1908.

EVERYBODY INTERESTED IN PONTOTOC COUNTY

Mrs. T. O. Cullins and T. O. Jr., returned Thursday evening from the state fair, where they spent three days with T. O. who is in charge of the exhibit from Pontotoc county. Mrs. Cullins reports that everybody is interested in Ada and Pontotoc county. Mr. Cullins took with him several thousand Ada folders which were printed in the early spring, and people grabbed them with great eagerness, all the time asking for more information and some asking for the names of responsible real estate dealers. They had all heard about the strike of gas and were anxious to know still more about it.

SMITH'S

Marlow Citizens Will Build Road.

Marlow, Ok., Sept. 26.—The business men of Marlow declared today a legal holiday, so far as business was concerned. Every business house in town was closed all day and every man and boy old enough went out and worked all day on the roads leading into Marlow.

All roads leading into Marlow will be put in better condition than they have ever been since statehood.

Fortify Yourself

AGAINST pneumonia and similar troubles by breaking up a cold before it gets a good hold on your system. In other words, nip a cold in the bud, then you will not have to worry about its future stages.

Rexall

COLD TABLETS

Are the best thing in the world to break up a cold. They have the advantage of similar preparations because they are made for one specific purpose—that of curing colds. They strike at the root of the trouble, equalizing blood conditions, and opening the pores so that the body can breathe and purify itself once more.

Rexall Cold Tablets positively cure colds, grippe and catarrh. They also prevent diphtheria, pneumonia and bronchial troubles. You should never be without them.

DEMOCRATIC COMMITTEE NEEDS MORE FUNDS

New York, Sept. 26.—Total contributions to date to the Democratic fund amount to \$298,750. It was announced tonight by Henry Morgenthau, chairman of the democratic national finance committee. Of this sum, he said, \$206,086 has been expended, and while the national committee feels encouraged over the contributions received, there is urgent need of not less than \$750,000 additional to pay legitimate expenses to the close of the campaign.

"The feeling of confidence throughout the country in the success of the Wilson and Marshall ticket is hurting us in a financial way," said Mr. Morgenthau. "We have received contributions from 17,116 persons," he added, however, "and every state in the Union has been heard from."

The states credited with the largest amounts are New York \$105,385, Pennsylvania \$19,516, Illinois \$15,453, Missouri \$9,475, New Jersey \$7,107, Wisconsin \$6,125, Louisiana \$5,465, Virginia \$5,036, Texas \$4,392 and Massachusetts \$3,039.

Contributions of \$1,000 or more from individuals since the first list was published two weeks ago are:

Supreme Court Justice James W. Gergard, New York, \$13,000; Samuel Untermyer, \$10,000, David W. Heyman, New York; J. C. C. Mayo, Kentucky; Walter Rogers, Chicago. Charles R. Smith, Wisconsin, each \$5,000. S. M. Jarvis, New York, \$2,500; J. N. Camden, Kentucky, \$2,500; Ralph Pulitzer, New York, \$2,000, and \$1,000 from each of the following: George A. Guthrie, Vance McCormick, Pennsylvania; Delancy Nicoll, Robert B. Vancortlandt, Robert B. Hirsch, William B. Hornblower, Amos Eno, Cornelius Pugsley, Frederick Allen, Charles Strauss, New York; John T. Murphy, Thomas D. Lockwood, Buffalo, N. Y.; Edward Mandelhouse, Texas; Henry St. George Tucker, Virginia, and John Boardman, Chicago.

Lots of Cotton Now Coming In.

The streets have been crowded with cotton all day. At ten o'clock this morning the News reporter counted twenty-five bales at the intersection of Main and Broadway, and there has not been a minute since early morning but what some cotton was standing there. The season may now be said to be in full blast.

Mrs. Simmons, the dressmaker, has returned home from Cleburne, Texas, and is now rooming at 210 W. 14th street.

THIS DATE IN HISTORY

- 1722—Samuel Adams, one of the foremost of the Revolutionary patriots, born in Boston. Died there Oct. 2, 1803.
- 1779—John Adams was commissioned by Congress to negotiate a treaty with Great Britain.
- 1785—General convention of the Protestant Episcopal church, the first in America, met in Philadelphia.
- 1825—The Stockton and Darlington line, the first English railway to carry passengers, opened for traffic.
- 1876—Gen. Braxton F. Bragg, famous Confederate soldier, died in Galveston, Texas. Born in North Carolina, March 22, 1817.
- 1898—Republicans of New York nominated Theodore Roosevelt for governor.
- 1911—The Italian army and navy began a siege of Tripoli.
- 1912—A good many of our citizens were awakened this morning about 4:30 by what they supposed was a slight earthquake. Upon investigation it was learned that A. E. Yeager, business manager and Miles C. Grisby, foreman of the News, started on a trip to Oklahoma City to take in the fair. That's all.

Dreams.

I come each night to a quiet shore
My thoughts slip out to sea,
Without a goal these ships of my soul
Sail out of the reach of me.
They fade so quick to the skyline dim
And many are lost in the deep,
But some come back from their outward track

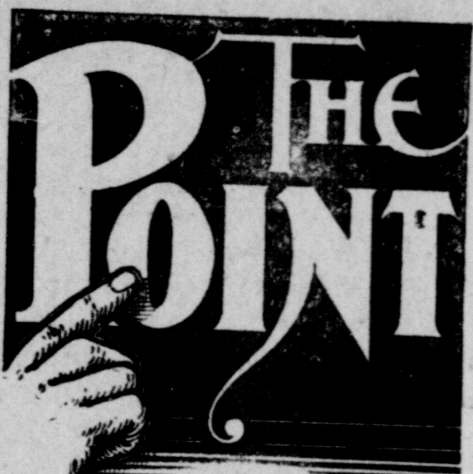

And into my visions creep.
My soul is tortured by the wrecks
Where gallant sailors die;
But I love the song of the happy throng

When the pleasure boats come by.
From yonder ship a brother speaks,
I see my father smile.
Across the sea they call to me
And the years turn back awhile.
With sudden ache of empty arms
I stand on the shore and pray
That the ships may last till the night is past

And at dawn ride into the bay.
But the ships of my soul are fated ships,
Whatever their freight may be.
There is never a dawn but finds them gone
For they all go down at sea.

—The News-Letter.

WANTED—At Cement Plant—Thirty men; steady work. Oklahoma Portland Cement Co. 181-11

In favor of installing electricity in your home is the convenience. You simply press a button and we do the rest. We can light your home, heat your home, cook your meals, wash your clothes, operate your sewing machine, and make it a pleasure for you to iron in the new way—the electric way. You can iron in the kitchen sewing room, porch or wherever you choose. No walking back and forth or stopping work, the right temperature in the iron always, therefore better work. Adopt the electric way—the cool, comfortable and efficient way. Electricity is one of the greatest household economizers and conveniences available. Always at your service to explain matters to you. Mrs. J. H. Johnson and the Horton children returned yesterday afternoon. Mrs. Johnson spent a month in Memphis and the children visited their grandparents in Mississippi. On the way home the little boy was taken ill at Memphis and delayed the return about a week.

This evening the Majestic will present another late number of Pathe's weekly, which is always full of interest. Another feature will be the great society drama "The Gambler," in which a society woman takes a chance against a young debutante who is engaged to a young man she admires. It is a gamble who wins, see the picture to learn how it terminates.

The DeSota will this evening present "A Celebrated Case." It is a two reel picture story founded on the battle of Fontenoy. It is full of excitement from the first minute until the last and has never failed to please the big crowds it has drawn at other places. It is a wonderful picture and will please the most exacting.

LYNCH PREDICTS WILSON WILL CARRY MINNESOTA

New York, Sept. 27.—F. B. Lynch, of St. Paul, democratic national committeeman for Minnesota, is one of the most conservative men in American politics—and one of the ablest. He managed the winning campaign of the late Governor John A. Johnson, of Minnesota and only that great man has done more than he to keep the people of the Northwest aroused to the importance of looking to the democratic party for relief from tariff burdens and the tyranny of the trusts. Above all, Mr. Lynch is not given to forecasting.

But when Governor Wilson was in St. Paul on September 18, he stated that he figured out that the total vote to be cast at the November election would not be far from 340,000 which he predicted would be divided in about this way: Wilson 135,000, Roosevelt 100,000, Taft 75,000, Socialists and Prohibition 30,000. If his prediction comes true the candidate will poll a record-breaking party vote.

FRESHMEN WIN THE ANNUAL CLASS FIGHT

Norman, Okla., Sept. 26.—The annual freshman-sophomore class fight at the University of Oklahoma took place this morning and was won by the first year men.

All night Wednesday groups of scouts of both classes kept vigilant watch on all the movements of each other. According to custom, the first year men were allowed to hold the position of defense, and the sophomores took the offensive.

At exactly 7:28 o'clock the Sophomores, fifty-six in number, led by Big Curry Bell, ran madly across the campus on to the quadrangle and threw themselves upon their enemies with all their power. From the start it was evident that the Freshmen had their opponents hopelessly outnumbered with at least a majority of thirty men.

That did not daunt the fearless sophomores. The fighting was a seething mass for at least fifteen minutes and the spectators were unable to tell who was gaining grounds, but it was soon noticed that the second year men were hopelessly beaten. At exactly 8:30 Curry Bell, the leader of the sophomores, acknowledged defeat.

The pictures of the fallen warriors was taken and they were then loosened from their chains.

Notice.

Sorosis will meet in call session with Mrs. Constant Saturday afternoon, Sept. 28 at 2 p. m. All members requested to be present.

Pretty Mothers

Health is the foundation of all good looks. The wise woman realizes this and takes precautions to preserve her health and strength through the period of child bearing. She remains a pretty mother by avoiding as far as possible the suffering and dangers of such occasions. This every woman may do through the use of Mother's Friend, a remedy that has been so long in use, and accomplished so much good, that it is in no sense an experiment, but a preparation which always produces the best results. It is for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend has been used and endorsed by thousands of mothers, and its use will provide a comfort and benefit to any woman in need of such a remedy. Mother's Friend is sold at drug stores. Write for free book for expectant mothers, which contains much valuable information.

BRADFIELD REGULATOR CO., Atlanta, Ga.

completion of the process looked like new.

The machine is still in an experimental stage, and has not formally been adopted by the department. It has, however, been set up in the basement of the Treasury building, near the money vaults and will be given a severe testing. Starting tomorrow, the machine will be run seven hours each day, during which time it is expected by the mechanics working on it that 25,000 of Uncle Sam's cast-off bills will be rejuvenated, and will be turned back into circulation again as clean, bright, stiff and as free from germs as when they were new.

As a money saver, the Treasury Department has great hopes. It costs \$13.30 to make a thousand bank notes. It costs but about 5c to rejuvenate the same number. Every day there are more than 35,000 bills withdrawn from circulation and destroyed; the cost of replacing these is \$465.50, but the cost of washing them and making them as good as new will be but \$15.

The machine is 15 feet long and 5 feet wide, and looks something like a newspaper printing press. It has dozens of rolls, many gears and operates with the same clash and clang. The money is placed between two canvas belts at one end of the machine. It runs through a solution of laundry soap and boiling water, where it is thoroughly cleansed. It then enters another vat in which there is a solution of stiffening materials and germ-killing solution. From this vat it is drawn between a gas-heated mangle, where it is ironed as stiff as new bills.

It emerges from the machine two minutes and fifteen seconds after it has started on its 64-foot trip, and is to all intents and purposes a perfect bill. When running at full speed the washing machine can clean about 4,000 bills an hour. The motive power is electricity.

The Treasury Department is immensely pleased with the new machine, and if the severe tests to which it will be subjected fail to show any flaws in its working several more will probably be placed in the building. —Washington Post.

Orel Busby left the first of the week for Norman where he will enter the State University. Orel will be editor of the "Umpire" the official paper of the University. —Wewoka Democrat.

Post a Month Ahead of Time.

Hobart, Ok., Sept. 26.—Slight damage was done crops in Southwestern Oklahoma last night by a frost which formed a month earlier than ever recorded in this section of the state. Bottom cotton is damaged approximately 10 per cent. Upland Kaffir corn and milo maize was touched, while tender vegetation in many instances was totally destroyed. The government thermometer registered 49 degrees, but the night was exceptionally clear and still. Other thermometers are reported to have recorded near the freezing point.

Illinois Good Roads Meeting.

Peoria, Ill., Sept. 27.—The largest and most notable meeting ever held in this state in aid of the good roads cause was held here today under the auspices of the Illinois Highway Improvement Association. The attendance included scores of delegates representing the State Grange and other agricultural bodies, automobile clubs and commercial and industrial organizations in every part of the state.

How to Start an Automobile.

In addition to his other accomplishments Postmaster Sloan Simpson is an authority on starting automobiles. He has prepared the following simple and infallible directions for the guidance of his friends:

1. Remove the spark-plug, empty the carburetor, and crank the engine.
2. Sandpaper the fly-wheel, take off the commutator and crank the engine.
3. Kick the pup, blow cigarette smoke into the priming cocks—and crank the engine.
4. Disconnect the drive-shaft, reverse the engine, empty the gasoline tank—and crank the engine.
5. Repeat a verse from the Koran, tie a wet towel about the cylinders, take off the lubricators—and crank the engine.
6. Take the motor entirely apart, put it together with your fingers crossed, drop a quarter into the tank—and crank the engine.
7. Crank the engine suddenly with out doing anything else. This often surprises it into running.
8. Turn your coat inside out, oil the radiator, throw the gasoline strainer at a spectator, stuff a cushion in the fly-wheel—and crank the engine.
9. Repeat the names of the prophets in Arabic, put a gumdrop in the cylinder, write your candid opinion of all gasoline engines on the windshield, roll up your cuffs, connect the batteries with your watch, take off your necktie, yell, "Hell!" into the gasoline tank—and crank the engine.

There is not the least sense in any of these rules, but each has started an engine in its time.—Dallas News.

CENTRAL AMERICAN REVOLUTION ENDS

Washington, Sept. 27.—Gen. Mena, leader of the Nicaraguan revolutionists, is to be sent to Panama under guard of American sailors and marines.

American Minister Weitzel reported to the State Department today that Rear Admiral Southerland had accepted the surrender of Mena and 700 followers at mid-night, Sept. 24. His capture is taken to indicate the collapse of the revolution and his removal to Panama probably means exile.

Officials here believe Gen. Mena requested that he be permitted to surrender to Admiral Southerland from fear of summary action at the hands of the Nicaraguan federals, and the Admiral doubtless thought it advisable to get the rebel leader out of the country.

Granada is now completely under control of the United States forces. Conditions are reported pitiful in the extreme. The inhabitants face famine in consequence of their long isolation. Red Cross provisions have been distributed with the greatest haste.

It is not thought that Gen. Zeledon and his forces will attempt to hold out now that the chief of the revolution has given up. Little importance is attached here to the announcement by Juan Irias, former follower of Zelaya, of his intention to succeed Gen. Mena. Irias made known his ambition before leaving San Jose, Costa Rica, several days ago. Nothing since has been heard of his whereabouts.

The disposition of Mena and his forces will depend upon the terms made by him with Admiral Southerland. By his disregard of all the rules of civilized warfare he has placed himself outside the pale of the law. Officials declare it would be entirely proper to turn Mena over to the Nicaraguan government.

But if Admiral Southerland has accepted the surrender with a pledge for protection that promise will be repeated by the state department, even if its redemption involves the transportation of the rebels to Panama.

BUY YOUR COAL NOW AND SAVE MONEY

On account of wishing to keep our Ice service good so that you will get your Ice in good time on the warm days, we have decided to sell our Coal at about cost for a while, so as to keep our men and teams busy during what cool days we have, so that we will not have to reduce our Ice delivery service, order now and we will deliver to you as we can before the cool weather sets in. Remember that we handle the very best Coal, there is many poor mines in a district that is supposed to be good. We buy only from the best and where they prepare it best, there is a fire clay in all mines in this state, the least bit of fire clay in coal will cause it to clinker, the fire clay will get into all coal that is mined by the blasting process, we buy only machine mined coal which is the only process that will insure no fire clay, in mining with machines there is a roof and a floor left of coal and there is no way for it to get in, machine mined coal goes on the market at a much higher price than blasted coal, but we have always thought that our customers wanted the best and we have got it for them and sold it for about the same price some sells a low grade of coal for, also remember that we load our wagons with a fork which insures no slack, we can burn our slack under our boilers, and realize something out of it while it is worthless for stove use. We are the only coal dealers in town that has use for slack, what ever amount of slack you get in your coal is the real amount of shortage you have, as it is the same as no coal. We guarantee our weights, and you get 2000-pound tons from us. We have in stock Dewar Lump, and Rotary screened Nut and the best McAlester Lump. Call us up before you buy, we can save you in price and in quality of the coal. Phone 29. ADA ICE AND COAL STORAGE CO. 145-dtf

Paul Cox At Logsdon's Shoe Store

Ministerial Economy.

Considering his meagre salary, it was a mystery to economical parishioners how the minister could afford to contribute so liberally to the church's social affairs, but another financial expert finally explained that it was a good investment. "The money he contributes makes these entertainments so attractive," he said, "that the young people fall in love and marry, and he makes it back many times over on the wedding fees."

\$1 Spent at this store will go as far as \$2 spent at other furniture houses, and we can prove this statement if you will call at our store and give us a chance.

New Goods Exchanged for Old We can repair your old furniture and make it look like new.
